Endnotes

(1) Visit Date 8/19/2022 Continued:

...bellow:

Here for testing - sent to our office by her endocrinologist for laboratory blood work
c/o abnormal breast mild on bilateral breast when she is not breastfeeding r/o hyperprolactinemia
c/o acute vaginitis
For Ureaplasma, mycoplasma, Aptima (full panel)
For Qthing labs - thyroid panel, prolactin
f/u in 2 weeks for results

Hx as bellow:

LMP 4/16/22 amenorrhea, UPT negative
Reports very irregular menses - skipping 2-3 months at a time
h/o BILATERAL POLYCYSTIC OVARIES
If no period or pregnancy next month consider provera change test

patient is recently married 03/21 - TTC reports husband was treated for infection -husband 29yo, no tox habits,
mover - heavy lifting -
SA: poor count and morphology -- taking fertility vitamins --- advise Reproductive Urologist

c/o irregular menses per patient irregular cycles some months skipped some months menses come, h/o high
testosterone, likely PCO. spironolactone didn't help. when taking oral contraceptive, June 2 years her period was
regular when she stops complaint of no menses - LMP 6/22/19. then started PNV
-- long discussion Tx options, for ovulation induction - when husband is here from Uzbekistan
- amenorrhea - for Provera challenge when husband is here
-- sonohyst with menses
1. LMP 04/16/2022 for femerra 1t d4-8, sono d11-13, for HCG, timed relations - no success
2. LMP ... for femarra 2t d4-8, consider HCG, IUI

c/o cramping with menses some cycles
c/o heavy menses some cycles
c/o intermittent pelvic pain with menses occasional

blood work with in normal limits
prolactin - 32 high -- repeat fasting Prolactin 7 -- 9/30/19 MRI brain and pituitary all normal - no masses -
was referred to neurologist, but didn't go. will monitor.
