

Family-Centered Health Promotion

NRS-429VN

3 Credits

Nov 28, 2022 - Jan 15, 2023

Course Description

This course focuses on family theories, health promotion models, cultural diversity, and teaching learning principles. The course emphasizes the family as the client, family FHP health assessments, screenings across the lifespan, communication, community resources, and family education. Appropriate health promotion education is evaluated against evidence-based research and practice.

LopesWrite

Refer to the LopesWrite webpage for guidance regarding assignments requiring submission to LopesWrite.

<https://support.gcu.edu/hc/en-us/articles/201277380-LopesWrite>

Topic 1: Teaching and Learning Styles

Objectives:

1. Evaluate personal learning styles.
2. Discuss the application of teaching strategies to support individualized nursing care plans.
3. Examine health promotion models used for behavioral change.

Resources

Health Promotion: Health and Wellness Across the Continuum

Read Chapter 1 in *Health Promotion: Health and Wellness Across the Continuum*.

https://www.gcumedia.com/digital-resources/grand-canyon-university/2018/health-promotion_health-and-wellness-across-the-continuum_1e.php

Teaching Strategies to Support Evidence-Based Practice

Read "Teaching Strategies to Support Evidence-Based Practice," by Winters and Echeverri, from *Critical Care Nurse* (2012).

Assessments

Class Introductions

Start Date & Time	Due Date & Time	Points
Nov 28, 2022, 12:00 AM	Nov 30, 2022, 11:59 PM	0

Take a moment to explore your new classroom and introduce yourself to your fellow classmates. What are you excited about learning? What do you think will be most challenging?

VARK Analysis Paper

Start Date & Time	Due Date & Time	Points
Nov 28, 2022, 12:00 AM	Dec 4, 2022, 11:59 PM	100

Learning styles represent the different approaches to learning based on preferences, weaknesses, and strengths. For learners to best achieve the desired educational outcome, learning styles must be considered when creating a plan. Complete "The VARK Questionnaire," located on the VARK website, and then complete the following:

1. Click "OK" to receive your questionnaire scores.
2. Once you have determined your preferred learning style, review the corresponding link to view your learning preference.
3. Review the other learning styles: visual, aural, read/write, kinesthetic, and multimodal (listed on the VARK Questionnaire Results page).
4. Compare your current preferred learning strategies to the identified strategies for your preferred learning style.
5. Examine how awareness of learning styles has influenced your perceptions of teaching and learning.

In a paper (750-1,000 words), summarize your analysis of this exercise and discuss the overall value of learning styles. Include the following:

1. Provide a summary of your learning style according the VARK questionnaire.
2. Describe your preferred learning strategies. Compare your current preferred learning strategies to the identified strategies for your preferred learning style.
3. Describe how individual learning styles affect the degree to which a learner can understand or perform educational activities. Discuss the importance of an educator identifying individual learning styles and preferences when working with learners.
4. Discuss why understanding the learning styles of individuals participating in health promotion is important to achieving the desired outcome. How do learning styles ultimately affect the possibility for a behavioral change? How would different learning styles be accommodated in health promotion?

Cite to at least three peer-reviewed or scholarly sources to complete this assignment. Sources should be published within the last 5 years and appropriate for the assignment criteria.

Prepare this assignment according to the guidelines found in the APA Style Guide, located in the Student Success Center.

This assignment uses a rubric. Please review the rubric prior to beginning the assignment to become familiar with the expectations for successful completion.

You are required to submit this assignment to LopesWrite. A link to the LopesWrite technical support articles is located in Course Resources if you need assistance.

Topic 1 DQ 1

Start Date & Time	Due Date & Time	Points
Nov 28, 2022, 12:00 AM	Nov 30, 2022, 11:59 PM	8

Describe the nurse's role and responsibility as health educator. What strategies, besides the use of learning styles, can a nurse educator consider when developing tailored individual care plans, or for educational programs in health promotion? When should behavioral objectives be utilized in a care plan or health promotion?

Topic 1 DQ 2

Start Date & Time	Due Date & Time	Points
Nov 28, 2022, 12:00 AM	Dec 2, 2022, 11:59 PM	8

Describe a health promotion model used to initiate behavioral changes. How does this model help in teaching behavioral changes? What are some of the barriers that affect a patient's ability to learn? How does a patient's readiness to learn, or readiness to change, affect learning outcomes?

Topic 1 Participation

Start Date & Time	Due Date & Time	Points
Nov 28, 2022, 12:00 AM	Dec 4, 2022, 11:59 PM	32

Topic 2: The Form and Function of Family

Objectives:

1. Discuss contemporary family structures.
2. Discuss the concepts related to family health promotion.
3. Apply family systems theory.
4. Develop strategies for family-centered health promotion.

Dec 5, 2022 - Dec 11, 2022 Max Points: 198

Assessments

Family Health Assessment Part I

Start Date & Time	Due Date & Time	Points
-------------------	-----------------	--------

Understanding family structure and style is essential to patient and family care. Conducting a family interview and needs assessment gathers information to identify strengths, as well as potential barriers to health. This information ultimately helps develop family-centered strategies for support and guidance.

This family health assessment is a two-part assignment. The information you gather in this initial assignment will be utilized for the second assignment in Topic 3.

Develop an interview questionnaire to be used in a family-focused functional assessment. The questionnaire must include three open-ended, family-focused questions to assess functional health patterns for each of the following:

1. Values/Health Perception
2. Nutrition
3. Sleep/Rest
4. Elimination
5. Activity/Exercise
6. Cognitive
7. Sensory-Perception
8. Self-Perception
9. Role Relationship
10. Sexuality
11. Coping

Select a family, other than your own, and seek permission from the family to conduct an interview. Utilize the interview questions compiled in your interview questionnaire to conduct a family-focused functional assessment. Document the responses as you conduct the interview.

Upon completion of the interview, write a 750-1,000-word paper. Analyze your assessment findings. **Your questionnaire should be submitted as an appendix to your assignment.**

Include the following in your paper:

1. Describe the family structure. Include individuals and any relevant attributes defining the family composition, race/ethnicity, social class, spirituality, and environment.
2. Summarize the overall health behaviors of the family. Describe the current health of the family.
3. Based on your findings, describe at least two of the functional health pattern strengths noted in the findings. Discuss three areas in which health problems or barriers to health were identified.
4. Describe how family systems theory can be applied to solicit changes in family members that, in turn, initiate positive changes to the overall family functions over time.

Cite at least three peer-reviewed or scholarly sources to complete this assignment. Sources should be published within the last 5 years and appropriate for the assignment criteria.

Prepare this assignment according to the guidelines found in the APA Style Guide, located in the Student Success Center.

This assignment uses a rubric. Please review the rubric prior to beginning the assignment to become familiar with the expectations for successful completion.

You are required to submit this assignment to LopesWrite. A link to the LopesWrite technical support articles is located in Course Resources if you need assistance.

Topic 2 DQ 1

Start Date & Time	Due Date & Time	Points
Dec 5, 2022, 12:00 AM	Dec 7, 2022, 11:59 PM	8

What is a definition of family that encompasses the different family structures prevalent today? Discuss the importance of acknowledging nontraditional family structures. Explain how family systems theory can be used to better understand the interactions of a modern family (traditional or nontraditional).

Topic 2 DQ 2

Start Date & Time	Due Date & Time	Points
Dec 5, 2022, 12:00 AM	Dec 9, 2022, 11:59 PM	8

Why is the concept of family health important? Consider the various strategies for health promotion. How does a nurse determine which strategy would best enable the targeted individuals to gain more control over, and improve, their health?

Topic 2 Participation

Start Date & Time	Due Date & Time	Points
Dec 5, 2022, 12:00 AM	Dec 11, 2022, 11:59 PM	32

Topic 3: Health Promotion in Nursing Care

Objectives:

1. Discuss how the approach to health promotion has changed throughout history
2. Describe how the concept of health has evolved over time.
3. Examine strategies for family-centered health promotion.
4. Differentiate between the three levels of health promotion: primary, secondary, and tertiary.

Dec 12, 2022 - Dec 18, 2022 Max Points: 198

Assessments

Family Assessment Part II

Start Date & Time	Due Date & Time	Points
Dec 12, 2022, 12:00 AM	Dec 18, 2022, 11:59 PM	150

Refer back to the interview and evaluation you conducted in the Topic 2 Family Health Assessment assignment. Identify the social determinates of health (SDOH) contributing to the family's health status. In a 750-1,000 word paper, create a plan of action to incorporate health promotion strategies for this family. Include the following:

1. Describe the SDOH that affect the family health status. What is the impact of these SDOH on the family?

Discuss why these factors are prevalent for this family.

2. Based on the information gathered through the family health assessment, recommend age-appropriate screenings for each family member. Provide support and rationale for your suggestions.
3. Choose a health model to assist in creating a plan of action. Describe the model selected. Discuss the reasons why this health model is the best choice for this family. Provide rationale for your reasoning.
4. Using the model, outline the steps for a family-centered health promotion. Include strategies for communication.

Cite at least three peer-reviewed or scholarly sources to complete this assignment. Sources should be published within the last 5 years and appropriate for the assignment criteria.

Prepare this assignment according to the guidelines found in the APA Style Guide, located in the Student Success Center.

This assignment uses a rubric. Please review the rubric prior to beginning the assignment to become familiar with the expectations for successful completion.

You are required to submit this assignment to LopesWrite. A link to the LopesWrite technical support articles is located in Course Resources if you need assistance.

Topic 3 DQ 1

Start Date & Time	Due Date & Time	Points
Dec 12, 2022, 12:00 AM	Dec 14, 2022, 11:59 PM	8

Discuss how the concept of "health" has changed overtime. Discuss how the concept has evolved to include wellness, illness, and overall well-being. How has health promotion changed over time? Why is it important that nurses implement health promotion interventions based on evidence-based practice?

Topic 3 DQ 2

Start Date & Time	Due Date & Time	Points
Dec 12, 2022, 12:00 AM	Dec 16, 2022, 11:59 PM	8

Compare and contrast the three different levels of health promotion (primary, secondary, tertiary). Discuss how the levels of prevention help determine educational needs for a patient.

Topic 3 Participation

Start Date & Time	Due Date & Time	Points
Dec 12, 2022, 12:00 AM	Dec 18, 2022, 11:59 PM	32

Topic 4: Cultural Competence and Nutrition in Health Promotion

Objectives:

1. Examine the importance of cultural competency in health promotion.
2. Discuss the application of cultural theories to provide effective family-centered care.
3. Discuss the significance of nutrition education in health promotion.

Assessments

Health Promotion in Minority Populations

Start Date & Time	Due Date & Time	Points
-------------------	-----------------	--------

Jan 2, 2023, 12:00 AM	Jan 8, 2023, 11:59 PM	200
-----------------------	-----------------------	-----

Select an ethnic minority group that is represented in the United States (American Indian/Alaskan Native, Asian American, Black/African American, Hispanic/Latino, Native Hawaiian, or Pacific Islander). Using health information available from Healthy People, the CDC, and other relevant government websites, analyze the health status for this group.

In a paper of 1,000-1,250 words, compare and contrast the health status of your selected minority group to the national average. Include the following:

1. Describe the ethnic minority group selected. Describe the current health status of this group. How do race and ethnicity influence health for this group?
2. What are the health disparities that exist for this group? What are the nutritional challenges for this group?
3. Discuss the barriers to health for this group resulting from culture, socioeconomics, education, and sociopolitical factors.
4. What health promotion activities are often practiced by this group?
5. Describe at least one approach using the three levels of health promotion prevention (primary, secondary, and tertiary) that is likely to be the most effective in a care plan given the unique needs of the minority group you have selected. Provide an explanation of why it might be the most effective choice.
6. What cultural beliefs or practices must be considered when creating a care plan? What cultural theory or model would be best to support culturally competent health promotion for this population? Why?

Cite at least three peer-reviewed or scholarly sources to complete this assignment. Sources should be published within the last 5 years and appropriate for the assignment criteria and public health content.

Prepare this assignment according to the guidelines found in the APA Style Guide, located in the Student Success Center.

This assignment uses a rubric. Please review the rubric prior to beginning the assignment to become familiar with the expectations for successful completion.

You are required to submit this assignment to LopesWrite. A link to the LopesWrite technical support articles is located in Course Resources if you need assistance.

Topic 4 DQ 1

Start Date & Time	Due Date & Time	Points
-------------------	-----------------	--------

Jan 2, 2023, 12:00 AM	Jan 4, 2023, 11:59 PM	8
-----------------------	-----------------------	---

What are the methods a nurse can use to gather cultural information from patients? How does cultural competence relate to better patient care? Discuss the ways in which a nurse demonstrates cultural competency in nursing practice.

Topic 4 DQ 2

Start Date & Time	Due Date & Time	Points
Jan 2, 2023, 12:00 AM	Jan 6, 2023, 11:59 PM	8

Discuss why nutrition is a central component in health promotion. What are some of the nutritional challenges for emerging populations? What roles do nutritional deficiency and nutritional excess play in disease?

Topic 4 Participation

Start Date & Time	Due Date & Time	Points
Jan 2, 2023, 12:00 AM	Jan 8, 2023, 11:59 PM	32

Topic 5: Health Education and Current Challenges for Family-Centered Health Promotion

Objectives:

1. Explain the role of health education in health promotion.
2. Examine the role of the nurse in promoting family-centered health education.
3. Discuss issues of risk for families.
4. Identify families at risk for domestic violence, child abuse, and elder abuse.

Jan 9, 2023 - Jan 15, 2023 Max Points: 208

Assessments

CLC - Health Promotion and Community Resource Teaching Project

Start Date & Time	Due Date & Time	Points
Jan 9, 2023, 12:00 AM	Jan 15, 2023, 11:59 PM	160

This is a Collaborative Learning Community (CLC) assignment.

An important role of nursing is to provide health promotion and disease prevention. Review the topics and related objectives provided on the Healthy People 2030 website. Choose a topic of interest that you would like to address, in conjunction with a population at-risk for the associated topic. Submit the topic and associated group to your instructor for approval.

Create a 15-20 slide PowerPoint presentation for your topic and focus group. Include speaker notes and citations for each slide, and create a slide at the end for References.

Address the following:

1. Describe the approved topic and associated population your group has selected. Discuss how this topic adversely affects the population. How does health disparity affect this population?
2. Explain evidence-based approaches that can optimize health for this population. How do these approaches minimize health disparity among affected populations?
3. Outline a proposal for health education that can be used in a family-centered health promotion to address the issue for the target population. Ensure your proposal is based on evidence-based practice.
4. Present a general profile of at least one health-related organization for the selected focus topic. Present two resources, national or local, for the proposed education plan that can be utilized by the provider or the patient.
5. Identify interdisciplinary health professionals important to include in the health promotion. What is their role? Why is their involvement significant?

Cite at least three peer-reviewed or scholarly sources to complete this assignment. Sources should be published within the last 5 years and appropriate for the assignment criteria and public health content.

Refer to the resource, "Creating Effective PowerPoint Presentations," located in the Student Success Center, for additional guidance on completing this assignment in the appropriate style.

While APA style is not required for the body of this assignment, solid academic writing is expected, and documentation of sources should be presented using APA formatting guidelines, which can be found in the APA Style Guide, located in the Student Success Center.

This assignment uses a rubric. Please review the rubric prior to beginning the assignment to become familiar with the expectations for successful completion.

You are required to submit this assignment to LopesWrite. A link to the LopesWrite technical support articles is located in Course resources if you need assistance.

Topic 5 DQ 1

Start Date & Time	Due Date & Time	Points
Jan 9, 2023, 12:00 AM	Jan 11, 2023, 11:59 PM	8

Explain the role of health education in health promotion. How is the nursing process used in developing health education? Describe a contemporary issue, local or global, that a family may experience today. What steps would the nurse take to address these as part of a health education plan?

Topic 5 DQ 2

Start Date & Time	Due Date & Time	Points
Jan 9, 2023, 12:00 AM	Jan 13, 2023, 11:59 PM	8

What characteristics would lead a provider to suspect domestic violence, child abuse, or elder abuse is taking

place within a family? Discuss your facility's procedure for reporting these types of abuse.

Topic 5 Participation

Start Date & Time	Due Date & Time	Points
Jan 9, 2023, 12:00 AM	Jan 15, 2023, 11:59 PM	32
